

Classic Wooden And Mesh California Queen Cage

Numéro d'article: QC-22

Introduction

HONESTBEE's Classic Wooden Queen Cage for safe transport and high-success queen bee introduction.

[En savoir plus](#)

Feature	Description	Benefit
Material	Natural solid wood body, durable mesh screen, and a natural cork stopper.	Provides a safe, insulated, and breathable environment for the queen; bio-degradable and bee-friendly.
Design	Rectangular block with an internal chamber, one mesh side, and a corked access hole.	Traditional, proven design for high success rates in queen introduction and safe transport.
Functionality	Designed for the slow-release candy plug method; easily fits between frames.	Maximizes queen acceptance by allowing the colony to acclimate gradually. Simple and effective to use.
Primary Applications	Shipping queen bees, introducing new queens to colonies.	A fundamental, dual-purpose tool for queen breeders and beekeepers alike.
Appearance	Clean, professional, and natural look.	Reflects a commitment to quality and standard beekeeping practices.
